

MilPAC III Lite

Phone: (626) 610-1888

Email: info@acmeportable.com

Web: www.acmeportable.com

Military grade workstation with **triple multi-point touchscreen displays** that fold into a compact package without a keyboard for protection.

Fully Rugged Construction

The MilPAC III Lite is built to withstand harsh environments, transport handling on wheeled and tracked land vehicles, and transport handling on fixed and rotary winged air vehicles. Its rugged aluminum and composite construction provides survivability in deployed environments 24/7.

Serious Power

In addition to its highly rugged build, it packs some serious computing power with 3 full HD displays into an easily transportable package. While it does not support the dual water cooling system like its MilPAC III counterpart, it does support a wider selection of GPU options.

BUILT TO YOUR SPECS

Our in-house engineering and design team is able to create custom solutions, either adding modifications of our standard products or full custom designs. Our sales engineers will work closely with you to truly understand the problem, specific certification requirements, quantity and schedule.

QUALITY TESTED

We pride ourselves in our strict quality control and high standards. Our factory is ISO 9001 certified, and all units are thoroughly inspected and tested in the USA before shipment. Warranty is offered on all units.

With over 25 years of experience, we pride ourselves in creating unique computing platforms that are customized specifically for demanding applications. Our portable computers are built to support intensive applications, additional PCIe cards, large disk storage, and multiple displays. From graphic-intensive applications to high-density storage servers, our computers are used in a number of industries, including digital media & broadcasting, test & measurement, and government & military.
