Notebook style portable KVM (Keyboard Video Mouse) system

Remotely Control Computers

Sometimes, there is no room for a server or you want to put all your computers in a safe place. Set your PMK at a convenient and suitable control field. With this unit, you can remotely control systems up to 130 feet away.

Access Up to 8 Computers

The PMK enables users access up to eight computers, servers, or KVM switches at the same time. Set your PMK at a convenient and suitable control field. With this unit, you can remotely control systems up to 130 feet.

Battery-Powered

By default, the PMK is battery-powered by a single battery for maximum portability. For those who desire no battery packs, a system without battery is still optional.
