

DURAPAC

The DuraPAC product is a robust portable computer built using all aluminum sheet metal to provide tough, go-anywhere unit suitable for tough environments and mobile applications. With the 17.3", HD LCD display and 4-expansion slots design, the DuraPAC can easily fulfill the requirements for many applications including digital media and broadcasting.

Versatile Platform

The DuraPAC comes with highly sought-after features such as hot-swappable hard drives, 4 full-length expansion slots, and more. It can be configured with many special add-on cards tailored to your specific unique applications.

High-performance

Some expect the DuraPAC to sacrifice some power because of its compact design. However, the DuraPAC is packed with high-performance capabilities, supporting the latest CPUs and graphics cards.

Lightweight and Compact

The DuraPAC is one of ACME's most popular computers because of its compact design. The chassis only weighs approximately 16.5 pounds. Its dimensions are 16.50"W x 13.62"H x 7.25"D.
